About This Content

Purchasing Clunk will permanently unlock this character in Awesomenauts. The character can also be purchased with Awesomepoints in-game.

Clunk is a moderately-challenging tank that shoots rockets and explodes for massive area damage to enemies and himself, but can bite enemies to regain health. He comes equipped with the following abilities:

- Bite nearby enemies, dealing damage and replenishing your own health.
- Self-destruct, dealing damage to yourself and nearby enemies.
- Shoot volleys of missiles at your opponents.

Clunk is a robot suffering from anger management issues. He's saving up money to pay for therapy, but keeps losing it due to damage compensations. Originally created as part of a robot army built to combat an immensely powerful super villain terrorizing the outer star systems, Clunk found himself without a job when the villain accidentally died of a nasty bacterial infection before the robot army was completed.

This was actually a blessing in disguise for Clunk, since he was never designed to return in one piece from his mission. He was refitted to do standard housekeeping work, but soon found himself out of work once more as he kept blowing aggression inhibitors

and subsequently went into immensely destructive tantrums.

Eventually, Clunk signed up as a mercenary to do what he is best at: wrecking things. He found that finally giving in to his aggressive nature has given him great inner peace. Nowadays he takes great pleasure in jetting around the battlefield, blowing up in peoples' faces to the sound of heavy metal.
