About This Game

Welcome to Waifu Bay Resort! This is a special place where most visitors are anime girls. They relax, swim in the warm ocean and undergo cosmetic procedures to become even more desirable in the eyes of their fans. Try on the role of a hotel owner and turn it into a holidaymakers paradise!

Your task in this clicker game is to develop the hotel to achieve the highest rating: 7 stars. It is not easy - such an exceptional rating will be given to you only if all the buildings are upgraded to the highest possible level.

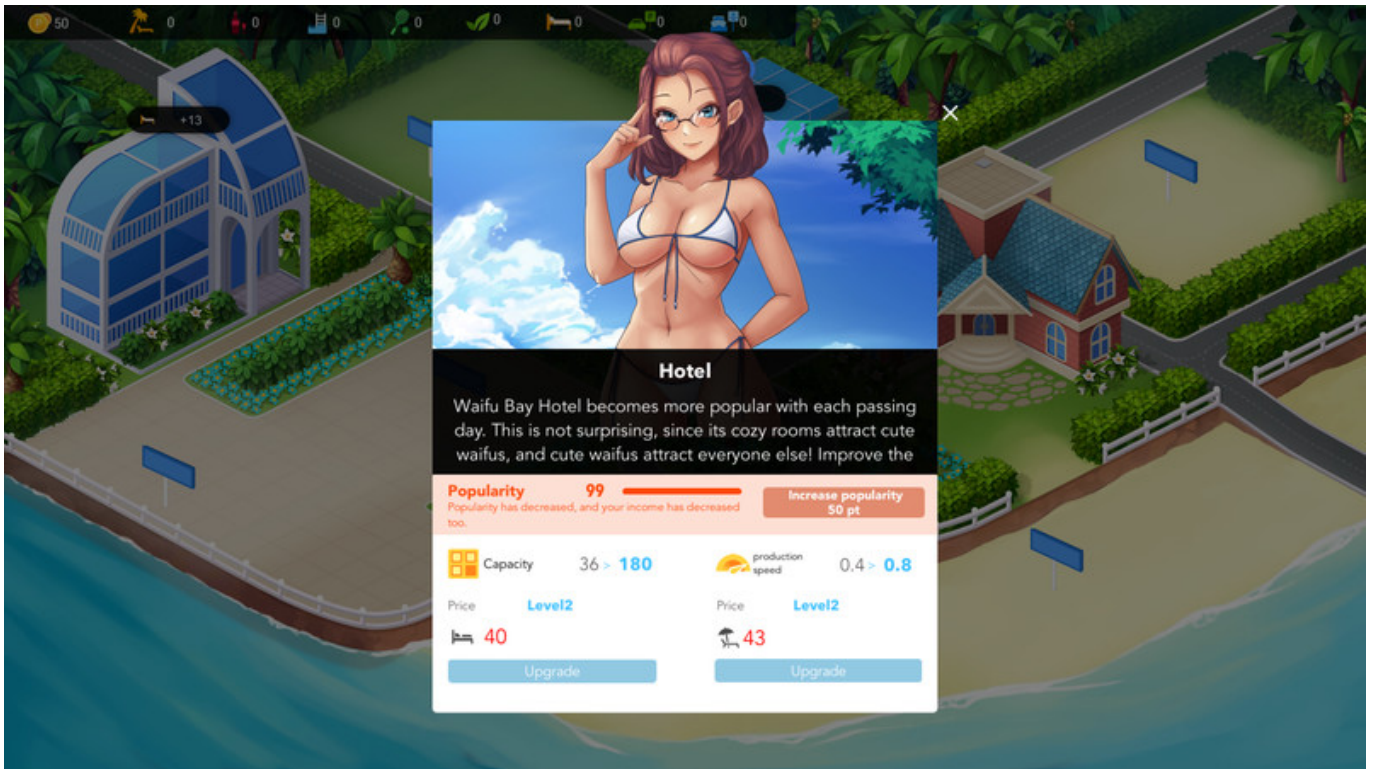

Don't forget: only girls work and rest in your hotel, and as the resort develops, the atmosphere becomes more confidential and the outfits become more frivolous! Isn't it a good reason to get the 7 stars rating as soon as possible?
